*President of Turkish Society
for Colposcopy and Cervical Pathology*

Dear friends and colleagues,

It is our great pleasure to welcome you all in Athens, Greece for the **7th Hellenic & 3rd Turkish joint Congress on Colposcopy and Cervical Pathology**, the organization of which is based on the combined effort of the **Hellenic Society for Colposcopy & Cervical Pathology** and the **Turkish Society for Colposcopy & Cervical Pathology** and will take place at **Divani Caravel Hotel** in Athens, Greece.

Our main goal was to join our forces and work on providing united sessions with contributors from different societies but with the same educational objectives so as to form a Scientific Programme, giving participants the opportunity to keep updated with the most recent developments in the diagnosis, management and treatment of cervical intraepithelial neoplasia. We are delighted that we have been also joined by the EFC, BSCCP & HeCPA study Group for the realization of an Intermediate/Advanced Colposcopy Course, highlighting the multidisciplinary approach in modern colposcopy.

The programme is focused on displaying the work of researchers from Greece and Turkey, as well as other European countries, throughout lectures, round tables and of course oral and e-poster presentations. Interactivity is fully encouraged through the presentation of rather interesting hypothetical clinical scenarios and case presentations followed by discussion.

We cannot be but grateful to all those who worked for the organization and realization of this joint Congress and to all world renowned invited faculty for sharing their wisdom, bringing different perspective, knowledge and skills to the management of various gynaecological disorders.

Thank you all for being with us in Athens.

We do wish you to enjoy an excellent and rewarding Congress and to experience a little of the history and culture of this dynamic city!

For the e-Posters table see page 34-44

AWARDS

During the Closing of the Congress on Sunday, October 13th, the **best Oral** will be awarded by an independent scientific Award Committee (on the basis of scientific merit of authors' work).

E-ABSTRACT BOOK

All Oral Presentations (accepted for presentation during the Congress) and all e-Posters (accepted for display during the Congress) are included in the e-Abstract Book of the Congress.

Guidelines about the presentations (Invited & Oral)

A. For PPT Presentations

(applies to ALL presenters)

PPT Template (OPTIONAL)

All presenters were encouraged to use one of the official Congress PPT templates in order to provide a uniform look to their presentation (ppt templates will also be available on the internet corner for any use).

Formal Requirements

Language: All presentations have to be given in **English** (as the official language of the Congress is English and no simultaneous translation will be provided).

Advertising: Advertising of products is **prohibited**. Be sure your slides are free of any commercial bias (eg company names or logos).

Patient anonymity: Kindly make sure that no patient names or any other information allowing the identification of a patient appear in your presentation.

Copyright reserved: It is the author's responsibility to ensure that any part of the slide show (figures, tables, images, etc.) is free of any third party right.

Technical Requirements

- Preparation

Format: preferable format is MS PowerPoint (ppt or pps).

Macintosh presentations will be accepted.*

Versions: up to MS PowerPoint 2010.

Saving of files: For onsite upload, the presentation has to be saved on a USB flash drive (recommended), CD-ROM or DVD-ROM drive.

Video clips: If you are using embedded video clips in your presentation, please remember to also have the video clips in a separate file (not only in the presentation).

Fonts & character: To avoid any possible compatibility problems, it is preferable not use any special fonts or special characters.

- Onsite presentation

You are kindly requested to deliver your presentation(s) to the technical support personnel at least **two (2) hours before the beginning of the Session** (in order to ensure on time they run smoothly and to be able of making any possible changes). If the presentation is scheduled early in the morning, you are kindly requested to check your presentation with the technical support personnel the day before.

Your PPT presentation will be available in the lecture hall via computer network. There will be no possibility to connect your personal laptop in the lecture hall, due to very restricted timeslots (row of the presentations).

The Hall will be equipped with the following:

- LCD projector with remote control (operated by presenter-no mouse will be available)
- Screen & Lighted pointer • Podium mounted microphone • Audience aisle microphones

Guidelines about the presentations (Invited & Oral)

It is very important to respect the flow of the session and the exact time available for each presentation and therefore you are requested to be consistent with the time slots. It is advisable to rehearse your presentation prior to the meeting to ascertain that the **time is not exceeded**.

****To the attention of Mac users:***

Please make sure to come with the suitable adapter and to also have a backup PPT for PC. You are kindly requested to meet with the technical support personnel at least **three (3) hours before the beginning of the session**, in order to assure compatibility (or backup solutions).

B. Time Slots

(applies to Chairmen/Moderators)

The profile of the Congress is mainly **educational**, focusing on providing high quality continuing education by the presentation of the latest significant advances in the area of vascular diseases and encouraging the interaction and open discussion between speakers and participants.

As a Chairman or Moderator, you should ensure the smooth progress of the session, time management as well as encourage discussions and interactions between faculty members and the audience by allowing sufficient time for questions from the audience.

In order to be helped, a **timer** will be running on the podium in front of the speaker, and on the panel of the chairmen. You will have to be consistent with the time and before the last minute of the presentation to kindly ask the presenter to conclude. Otherwise the projections will be stopped.

C. Conflict of Interest Disclosure

(applies to all invited faculty)

According to the Greek National Organization for Medicines policy, no invited presentation should be commercial.

Therefore, in compliance with their guidelines, all invited faculty (speakers/chairmen/moderators etc) participating in the Congress are strictly requested to disclose or indicate potential conflicts of interest (with the Congress sponsors) that might cause a bias.

You are requested (if not already done) to:

Advise the relative Congress sponsors file

Declare any potential or actual conflict of interest regarding the above sponsors and topics of the presentation (s)

1. at the **Second Slide** of your PowerPoint Presentation (if speaker)
2. or **orally** at the beginning of the session (if chairman etc)

Guidelines about the presentations (Invited & Oral)

The existence of potential conflicts of interest does not necessarily indicate a bias. However it is your ethical obligation to inform organizers and participants so that they are made aware of any relationship with the sponsors that might cause unintentional bias. A potential conflict of interest may arise from various relationships, past or present, such as employment, consultancy, funding for research, investments, family relationship etc.

D. PPT Presentations-Publication & Permission

(applies to Invited Speakers)

According to the Congress Organizers' willingness, by the end of the scientific programme of each day, PPT presentations of passed sessions will be published on the Laptops (Desktops) available at the Internet Corner, in order participants to be able to view and download them.

We guarantee that the file cannot, at any time, be modified or used for any other reason. Of course we will be very glad to eliminate any slides that you indicate, from the presentation itself, just so it remains valid.

Due to legal reasons, Congress Organizers cannot be held responsible for any of the materials included in your presentation. It is of your responsibility to ensure that any part of the slide show (figures, tables, images, etc.) is free of any third party right (copyright permission and the right to republish scientific information).

Due to the importance of your presentation, we must have your **written permission** to publish it in this specific area. Therefore you are requested to duly complete and sign the relative **Publication Permission Form** that you will be provided by the Secretariat.

You are also kindly requested to inform the Technical Support Personnel, when delivering your presentation(s), in case you do not wish or not agree your presentation(s) to be in participants' disposal for downloading if there is no **written permission**.
