

Ladies and gentlemen,

we are looking for our small town (it is a „city“) a family physician as follower for our doctor and biologist.

Haiterbach is at the edge of the black forest and has about 6000 habitants.

In the last two years closed two medical offices age-related.
Dr. Leonhard has to stop because of bad health.

Now we have only one double-office.
The major, the habitants and the pharmacist would like to have a new doctor.

Mr. Leonhard would like to help to get a new office.
The rooms could be used immediately.
We have a good infrastructure for kindergarden, schools, sports and free time.

To the main city Stuttgart we habe to drive about 50 minutes.

We would like to help to start here to search rooms to live, financing and integration.

We have many friends from Greece and would like to help to install a well support service and of course a successfull business.

We are tax consultants and would help in any way.
Mr. Fuchtel is working for the german government, so that we could contact him, if we need.

We also would like to help for other towns and physicans.

About the medical office of Mr. Leonhard we have an expose in german language.

From 6.-13. September we are in Kyllini Beach at Peloponnes.
There could be a meeting to discus the possibilities, if you would like.

We would like to hear from you.

Greetings

Bernd Grenzendorf
