

DIAGNOSTIC AND RESEARCH PERSPECTIVES IN HISTOPATHOLOGY

Deciphering microenvironment in inflammatory diseases and tumor

MAY 20th 2021

3rd Webinar

Organizer
HELLENIC ONCOLOGY FORUM

Scientific Program

16.30 CET (17.30 Greece Time)

16.30 (CET) **Multiple choice questions**

16.35 (CET) **Speech 1**

Panel: V. Georgoulas (GR), E. Kourea (GR)

The role of tumor microenvironment as a biomarker for immunotherapy response

K. Kosmatopoulos (FR)

16.55 (CET) **Q&A**

17.05 (CET) **Speech 2**

Panel: G. Bamias (GR), S. Sakellariou (GR)

The role of microenvironment in Inflammatory bowel disease as a biomarker for clinical outcome and treatment response

A. Sourla (GR)

17.25 (CET) **Q&A**

17.35 (CET) **Speech 3**

Panel: M. Dougan (US), P. Verginis (GR)

Adverse effects of immune checkpoint inhibitors treatment: the role of pathologists

I. Pateras (GR)

17.55 (CET) **Q&A**

18.05 (CET) **Multiple choice question**
